Address: South Suburb Cheng Li Automobile Industry Park,, Suizhou City, HuBei province, China.

QUOTATION

4x4 ISUZU pickup aerial platform truck with Insulated Basket

Specification:

category	project	unit	data
Size parameters	★Total length	mm	5998
	★Total width	mm	2000
	★Total height	mm	3300
quality parameter	Number of passengers (including driver)	people	2+3
	★Total mass	kg	3495
Main performance parameters	Working platform rated load	kg	120
	★Maximum working height	m	13.5

Configuration instructions

Part Name	Brief description
engine	JE4D25Q6A 150HP/110KW
Displacement	2499ML
Gearbox	6AT Automatic
cab	Single-row seat, can take 5 people, the cab is equipped with air conditioning
Hoarding and walking platform	Stainless steel fence and non-slip walking platform
Power take-off system	mechanical operation
Working platform	600×600×1000mm 0.4KV Insulated Basket
Arm form	★ Mixing arm
slewing device	360 degree continuous rotation
Outrigger	★ Front and rear V- shaped herringbone legs , individually adjustable

	(control)
operate	★ Electronically controlled operation,
control system	CAN bus control system, equipped with wireless remote control to achieve stepless speed regulation
Leveling system	Hydrostatic automatic leveling
